

AVON OLD FARMS EXPLORES THE AMAZON

with **Dr. Jack Sanford**

June 2 to 12, 2017 (door to door)

“This is a non-stop workshop full of once-in-a-lifetime experiences.”

Unique, active, and fun! This Amazon workshop and expedition is an eye-opening introduction to the environmental and cultural aspects of the Amazon rainforest and river system in the Amazon basin of Northern Peru. The program is safe, comfortable, and accessible, offering the opportunity for many intercultural interactions, plus science and service field experiences:

- Work side-by-side with scientists in one of the most biologically diverse ecosystems on the planet.
- Ascend over 115 feet on a 1/4-mile Rainforest Canopy Walkway, one of the few of its kind in the New World.
- Interact with indigenous people and see how they use the forest for medicine, food, and shelter.
- Contribute to a Community Service Project to benefit people who live in a village along the Amazon River.
