Monday, June 13th, 2016

Dear Parents,

I am a clinical social worker who will serve as the Avon Old Farms mental health counselor for the 2016-2017 academic year.

In 2004, I graduated from the Smith College School for Social Work and continued my training at the Yale Child Study Center. I have since pursued further sustained studies in applied behavioral analysis, individual development, and relational therapy with teenagers. Recently, I was appointed to the faculty at both the UCONN School of Social Work and the Department of Psychiatry at the UCONN School of Medicine.

Located three miles from the AOF campus, my private practice specializes in providing developmentally informed treatment to adolescents and their families. I usually work closely with parents in providing therapy to their children. For more information about me and my private practice, please visit my website at www.jeffreyasmar.com

I anticipate that I will be on the Avon Old Farms campus several mornings each week to provide short and long term treatment. Your son can schedule an appointment directly with me. If desired and/or clinically necessary, I will also provide referrals to local mental health professionals. **It is important for you to know that my work with students and their families is confidential.** The school does not charge an additional fee to the parents of students who partake of my services.

If you wish to discuss any thoughts or concerns that you may have regarding your son or simply want to ask me a question, please contact me at 860-284-9434. I typically return calls within 24 hours. The voice message on my office phone number indicates how to contact me in case of an emergency.

Lastly, I plan on participating in Parents' Weekend this fall. I look forward to meeting those of you who are able to attend.

Sincerely,
Jeffrey A. Asmar, LCSW
